

OVERSIGHT COMMITTEE MINUTES- March 19, 2012

Present Thad Scudder CYSA, Tony werner LSC, Brian Smith KSC, Nicole Vazquez, Teresa Aloe, TB and CYSA, Tara Hargrave Kalama

There was continued discussion about implementing policies for developmental teams. The TB committee and the registrar will coordinate to develop policies that address whether developmental players can play rec in a spring season after having played on a developmental team, and if so, what limits will be re: placing such players on the same team.

Teresa will speak with Max Anderson about how he felt the season went, any suggestions he has for future teams, and whether he created a practice plan that he is willing to share with future teams.

There was discussion about the timing of TB tryouts, specifically it was suggested that U11 tryouts be held prior to U12 tryouts to give any U11 player who is not selected for a U11 team a chance to make a U12 team. Tryouts are set with a number of factors in mind, one of which is the availability of coaches to attend tryouts. This year that factor weighed heavily in when some of the tryouts were scheduled.

Registrar report- The registrar committee traditionally fields requests from rec players re: team placement and does make efforts to accommodate those requests. It is not possible to accommodate everyone's request. This spring some members whose requests were not accommodated were overly aggressive in making their displeasure known to the registrars. These incidents were dealt with at the individual club level. However a request was made for CYSA to address this issue. Teresa indicated that in the past she had acted as a liaison between the coaches and the parents. Discussion was had about creating such a position within CYSA. This merits further discussion and it has been place on next month's agenda.
